

On the 3rd day of Christmas Hedrick gave to me...

## Vertiv™ Liebert EXM UPS System:

The right choice for flexibility, reliability, and energy efficiency

- Maximizes both capital and operational efficiency.
- Transformer-free topology with up to 97% efficiency in double conversion mode and 99% in Eco mode – lowers operating expenses and reduces TCO.
- Tested, proven design – offers a modular architecture that engineers and customers trust.
- High-capacity and unity power factor in a smaller footprint. Provides more usable power, best space utilization and reduced installation costs
- Potential for energy rebates.

Features an intuitive interface, scalable design, and is LIB-ready.

Energy Star® Qualified

REDUNDANT / SCALABLE FRAMES		
FROM	TO	Module
10kW 208V Internal Batteries	40kW 208V Internal Batteries	20kW / NVA
20kW 208V	100kW 208V	
20kW 208V	200kW 208V
