HEDRICK ASSOCIATES - NEW IT EDGE PRODUCTS AND NEW HVAC TECHNOLOGY SEMINAR

Please join Hedrick for a “New IT Edge Products and New HVAC Technology Seminar” event on Wednesday October 23rd in Lansing MI and Thursday October 24th in Grand Rapids MI. Hedrick's Thermal and IT Divisions have seen considerable growth over the past 2 years, offering new and exciting technologies and capabilities. Come learn about them!

- High efficiency designs without compromise in UPS systems and thermal systems for edge computing infrastructure.
- New Web based Monitoring Software for Data centers and Server Rooms.
- New Ultrasonic Humidification Systems reducing humidification costs by 92%.
- IAQ technology designed to reduce demand on building HVAC systems and improve indoor environments for occupants.
- IAQ Monitoring using New Web Based – Low cost wireless sensors.

FEATURED IN OUR SEMINAR AND PRODUCT SHOW ARE THE FOLLOWING MANUFACTURERS:

Liebert/Vertiv- Vertiv designs, builds and services critical infrastructure that enables vital applications for data centers, communication networks and commercial and industrial facilities.

Airthings- How good or bad is your indoor air quality? How do you know? Airthings answers that question with an advanced, low cost, non-invasive wireless monitoring system, providing you the data to improve your working environment.

Packet Power- A leading manufacturer of wireless power and environmental monitors and monitoring applications.

Geist- Data center power, monitoring and infrastructure management products that are designed to fit each customer's specific needs.

enVerid- Featuring the 2019 AHR Product Innovation of the year award winner - The enVerid HLR offers unique IAQ benefits combined with significant HVAC energy demand reduction.

Humidifirst- Humidifirst is committed to being the innovative leader in ultrasonic humidifier technology. Discover all the ways you can benefit from a Humidifirst ultrasonic humidifier and how the energy savings alone can provide very attractive paybacks.

Hitachi- Hitachi Cooling and Heating is the premium air conditioning brand of Johnson Controls-Hitachi. Our commitment to product innovation ensures your customers will enjoy years of exceptional comfort, energy savings and performance. And, you will enjoy the ease of installing and maintaining uncommonly well-designed equipment.
